Hobbs, N.M.

Gentleman:

We are in receipt of Commission form C-110 Covering your CW Shepherd "B" well No.5, located in unit I, Sec.1, T-26-S, R-~~27~~-E, Jalmat pool. This C-110 states that the gas from this well is being vented.

You will recall that I wrote you some time back concerning this well and your answering letter of May 15, 1962 advised that permanent tank battery was being constructed and that this well would be connected to El Paso within ten days to two weeks.

Since no connection has been made for this well it is necessary that I cancel the allowable effective July 10, 1962. Your allowable cancellation will remain in effect until you obtain either an NFO or a gas connection.

Yours very truly,

Joe D. Ramey
Proration Manager

JDR/cb

Reinstated 8/1/63
