Mr. J. A. Dunlavey
Skelly Oil Company
Hobbs, New Mexico

Dear Sir:

This is in regard to the cementing of the 8 5/8" string of casing in your Sims "C" Well No. 1, in Sec. 3, T. 23 S., R. 37 E.

Form C-101, "Notice of Intention to Drill" for this well, which I approved October 17, 1936, stated that the 8 5/8" string of casing was to be set with 350 sacks of cement. Form C-103, "Report on Result of Test of Casing Shut-off" stated that this string was set with only 50 sacks of cement.

On November 20, I approved form C-102, "Notice of Intention to Test Casing Shut-off" which stated that only 50 sacks of cement were used. (This I believed, at the time, was a typographical error.) Please advise.

Very truly yours,

FJV:t

F. J. Vesely,
State Oil & Gas Inspector.
