OIL CONSERVATION COMMISSION  
SANTA FE, NEW MEXICO

Complete as Water Well

Hobbs, New Mexico

(Place)

October 8, 1952

(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the R. R. Sims**Skelly Oil Company**

(Company or Operator)

Well No. 7 in K

(Unit)

NE  $\frac{1}{4}$  SW  $\frac{1}{4}$  of Sec. 3, T. 23S, R. 37E, NMPM., South Drinkard Pool

(40-acre Subdivision)

Lee

County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

Since production from this well has declined to approximately 1 bbl. of oil per day and 3 bbls. of water from a FBTD of 6650', it is no longer profitable to pump said well as a commercial producer.

Therefore, permission is being requested to plug back to lower Glorietta and complete as a water well for use in water flood operations.

Work to proceed as follows:

Set Baker Cast Iron Bridge Plug at base of Glorietta at approximately 5250' with an overlying plastic plug. Perforate  $5\frac{1}{2}$ " OD casing with approximately 180 holes. Acidize, and test perforations for water.

Approved....., 19.....  
Except as follows:

Approved
