Mr. Roy C. Yarbrough
Oil & Gas Inspector
Public Service Oil Conservation Commission
Hobbs, New Mexico

Dear Sir:

We have your letter of January 10, 1949 stating that you had just received our Form G-102, Notice of Intention to Test casing shut-off, on 5 1/2" O.D. casing set at 3505' with 150 sacks cement. This report was mailed Jan. 6th and in your reply you advised us to two stage at the top of the salt section on this string of pipe.

We wish to advise that on January 10th we filed Notice of Intention to Change Plans and no doubt you have this in your office by this time. We feel sure this last report will meet with your approval.

We have been mailing these reports to Santa Fe, New Mexico. Please advise us if we are supposed to mail them to Hobbs.

Yours truly,

RALEIGH
