Penrose Skelly Field.

Dear Mr. Lowe:

Just received Form C-102, Notice of Intention to Test
Casing Shut-Off, on 5 1/2" O.D. Casing set at 3505' with 150
sacks cement.

This does not meet with the approval of the Oil Conser-
vation Commission and I would advise that you two stage at the
top of the salt section on this string of pipe.

Very truly yours,

Oil & Gas Inspector
