THEORY OF THE EARTH

CHAPTER I. OF THE ORIGIN OF THE EARTH.

SECTION I. OF THE ORIGIN OF THE EARTH.

THE first question which presents itself to the mind, is, what was the cause of the origin of the earth? The answer to this question is, that the earth was created by the power of God. The second question is, what was the state of the earth at the first? The answer to this question is, that the earth was in a state of confusion and darkness. The third question is, what was the duration of the earth's existence? The answer to this question is, that the earth has existed for a long period of time, and will continue to exist for a long period of time to come.

The earth is a globe, and is surrounded by water. The water is divided into oceans, seas, and rivers. The land is divided into continents, islands, and mountains. The air is filled with clouds, and the sky is filled with stars.

The earth is a globe, and is surrounded by water. The water is divided into oceans, seas, and rivers. The land is divided into continents, islands, and mountains. The air is filled with clouds, and the sky is filled with stars.
