Proposed

17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give a brief description of the work) SEE RULE 1103.

- 1) Move in workover rig. Pull rods and tubing.
- 2) Run casing scraper in 5-1/2" OD casing to 3659'.
- 3) Set retrievable bridge plug at approximately 3600'.
- 4) Load well bore with inhibited water.

Note: It is proposed to temporarily abandon this well because it is considered uneconomical to produce. Well bore will be preserved for possible use as an injection well.

I, I hereby certify that the information above is true and complete to the best of my knowledge.
