Mr. W. L. Todd, Jr.
Dalport Oil Corporation
1304 Magnolia Bldg.
Dallas, Texas

Dear Mr. Todd:

We have Form C-103, Report on Result of Test of Casing Shut-Off, which we cannot approve. Please refer to Rule 27, Rules and Regulations of the Oil Conservation Commission, which reads as follows:

"A report on the result of test of casing shut-off shall be filed with the Commission in triplicate within ten days after the completion of work on Form C-103, "Miscellaneous Reports on Wells." It shall indicate any changes made in the approved plan outlined previously on Form C-102. It shall also give a detailed report of the method used and of the results obtained and any other pertinent information. Name of the witness shall be given on the report, and it shall be signed and sworn to before a notary public."

Will you please file another Form C-103 according to this rule.

Also, on checking the file we find that you did not file a notice of intention to test casing shut-off on the surface casing, nor the report on results obtained. We must have this report immediately.

Very truly yours,

Oil Conservation Commission
