17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well is located on the edge of the localized gas cap area in the southwestern part of the unit area. Injection into this well was designed to establish a water bank at the edge of the gas cap area, to prevent loss of oil into the gas cap. This purpose has now been achieved. The well was shut in March 15, 1973. We propose to temporarily abandon the well by leaving it shut in, pending future injection requirements.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
