17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well has become uneconomical to operate, producing one barrel oil and 50 barrels water per day. Skelly Oil Company respectfully requests permission to temporarily abandon this well by setting a 7" retrievable bridge plug at 3300' above the producing perforations 3420-3689' and load well bore with treated water. Present plans are to hold this well for possible use as an injector in an injection pattern change in the second quarter of 1977.
