

INTER-OFFICE CORRESPONDENCE
Skelly Oil Company

SUBJECT

Mr. F. J. Vesely
Oil Conservation Commissioner
Carlsbad, New Mexico

Dear Sir:

Notice of intention to shoot this well should have been turned in to you on November 6th but due to an oversight on our part this slipped by us. We regret this very much. As yet we have been unable to take a true completion test on this well due to the fact that several days were spent cleaning out after shooting and the Shell Pipe Line is now lowering their gathering system on our Sims Lease. The Shell Pipe Line will have this completed in the next few days and then we will take a test of this well. As soon as this is done we will send in to you the result of shooting this well.

very truly yours
