13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Request permission to change the well designation from salt water disposal well to water injection well. This well was an oil producer in the Penrose formation prior to being converted to an injection well into the same zone. This lease is directly offset by two (2) Texaco Operated Penrose formation waterfloods, the Skelly Penrose Unit to the north and the New Mexico BZ State NCT 8 Lease to the west. This well supplies pressure support from the east benefiting at least three (3) Penrose producers. (See attached plat)
