Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Well was deepened to a T.D. of 6120'. Ran 4-1/2", J'55, 9.7" and 10.5" casing and set at 6106', cemented with 270 sacks. Plug down 12:00 Midnight, October 14, 1968. Perforated 5494' to 5726' and 5769' to 6011'. Acidized perfs with 3,000 gallons 15% acid. Sand-water fractured with 50,000 gallons gelled salt water and 50,000 20/40 sand. Started swabbing, recovered water with trace of oil. Well was shut-in for further evaluation.

Solar Oil Company plans to re-enter and attempt completion in the Elizabry formation.

Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.
