NTV MEXICO OIL CONSERVATION C 'MISSION Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Notice of the proposed plan was (was not) obtained. (Cross out incorrect words.) (No return as yet) DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED Shot well with 330 qts solidified glycerin from 5746' to 3491'. Shot was tamped w/ 2/4 yd gravel and hole loaded w/ oil. Jasei AG Bomb and shot exploded at 5:30 P.M. February 23, 1336. Hole cleared itself and blew in for gas well showing no oil. Gas estimated at 4,000,000 cu ft.
