Gentlemen:

Following is a notice of intention to do certain work as described below at the

Skelly Oil Company E.L. Steeler Well No. 2 in NE/4 NE/4

## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

This well, which was temporarily abandoned at a total depth of 7200' as a dry hole in June, 1945, was recently deepened from 7200' to 10,589' in an effort to complete as a commercial producer. In drilling to present total depth no oil or gas shows were encountered in commercial quantities. Therefore it is our intention to plug this well, using cement and mud, in accordance with the existing rules and regulations of the New Mexico Oil Conservation Commission.
