OIL CONSERVATION COMMISSION  
SANTA FE, NEW MEXICO

(Place)

(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the E. L. Stealer Lease  
Shelly Oil Company Well No. 3 in "H"  
(Company or Operator) Pool  
SE NE 17 23 37E Fourteen-Shelly  
(40-acre Subdivision) 1/4 of Sec. 17, T. 23, R. 37E, NMPM, Pool  
Lee County.

FULL DETAILS OF PROPOSED PLAN OF WORK  
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

The above well was drilled to TD 3727' and hole filled 3000' with sulphur water. No oil or gas in commercial quantities were encountered through any zone. Well was plugged back with cement to 2813' and temporarily abandoned on Dec. 3, 1943. 9-5/8" OD casing was set at 1067' and cemented to surface and left in well. It is now our intention to drill out the cement to approximately 3530' and stratify the Queens section and test for gas. Then if the gas volume justifies running casing, a string of 5 1/2" OD casing will be set and cemented around 3250' and the well completed as a gas well.

Approved....., 19.....  
Except as follows:
