Gentlemen:

In checking the file on your Duthie #3, which has a dual order #DC-132, we notice that although you have been assigned an NSP Order for 80 acres and this was received in February of 1955, we have not received the required Form C-104 and C-110 for your gas, and the regulation gas plat. Please file these forms as soon as possible so that there will be no delay in the assigning of an allowable when the notice of connection is received.

Yours very truly,

OIL CONSERVATION COMMISSION

*Advised by Mr. Carr that the company
has not received notice of connection
for gas. May be that the company
has not filed the required forms before
asking for gas allowable.*
