Mr. A. L. Porter
New Mexico Oil Conservation Commission
P.O. Box 872
Santa Fe, New Mexico

RENEWED APPLICATION

Dear Mr. Porter:

This letter constitutes an application for authorization to dually complete an oil - gas well and for approval of a non-standard gas prevention unit.

1. Reeler & Sheldon operates a well located 1900' from the south and 660' from the west lines of Section 20-2E38-337E, Lea County, New Mexico.
2. The well above described is known as the Reeler #1. It was completed at a depth of 3668' as an oil well producing from the lower Queen sands and is permitted as being in the Langite-Mattis oil field.
3. It is proposed to perforate the section between 3000' and 3100', to fracture the formation, and to produce gas through the casing-tubing annulus. The dual completion would be accomplished by setting a Halliburton type CL production packer at approximately 3120'.
4. The section from 3000' to 3100' is part of the Yates formation and being located in the NE 1/4 of Section 20-2E38-337E will be in the Jalnet gas pool.
5. The acreage dedicated to the gas well will be the NE 1/4 of Section 20-2E38-337E. It is herewith requested that this non-standard gas prevention unit be approved.
6. A plat of the area showing the location, acreage dedicated, and the offset properties is attached hereto.
7. The applicant herewith states that copies of this application together with copies of the plat and copies of form G-125 have been furnished by mail to each offset operator, namely:

Gulf Oil Corporation, Box 669, Roswell, New Mexico
Shelly Oil Company, Box 38, Hobbs, New Mexico
Western Natural Gas Company, Box 1060, Jal, New Mexico
R. Olson Oil Company, Jal, New Mexico
Amarco Petroleum Corporation, Box 591, Midland, Texas

Yours very truly,
REELER & SHELDON

Vilas P. Sheldon
