17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was shut in April 1, 1972, as high water production and low oil production made it uneconomical to operate. It was in need of equipment repairs which could not be justified economically. Skelly proposes to plug and abandon this well in 1975.
