17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was shut in on April 1, 1972, as high water production and low oil production made it uneconomical to operate. It was in need of equipment repairs which could not be justified economically. The lease is scheduled to be unitized into the proposed Penrose "C" unit; and if not, a cooperative waterflood project will be initiated. We propose temporarily abandoning it by leaving it shut in pending determination of the need for this well in waterflood operations.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
