Durk Royalty Co.
800 Oil & Gas Bldg.
Wichita Falls, Texas

Gentlemen:

We are returning Form C-104 on which you request that your LeMayon Federal No. 1 in Unit N of Section 21, T-23-S, R-37-E be reclassified as a gas well in the Langlie Mattix Oil Pool.

On Form C-116 you have reported that the well made 12 barrels of oil in 24 hours, and we regret to inform you that so long as the well is producing oil it will be impossible to classify it as a gas well. If at some future date this well produces only gas, then it may be properly classified as a gas well.

Yours very truly,

OIL CONSERVATION COMMISSION
