17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

In June, 1977, the well was swabbed for several days, then began flowing without artificial lifting. It flowed approximately one week before production ceased.

In July, 1977, again the well was swabbed for several days, then began flowing without artificial lifting. Production ceased after approximately one week.

At the present time a study is being made with the swab results to plan a method to restore the well to production.

There has been no change in original perforations of 5354-5893' (27 holes). 10/4/77

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
