17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This well was closed in when purchased by Gulf on 1-1-77, and has remained closed in to this date. Poor condition of the surface producing equipment and the depleted nature of the Langlie Mattix zone around this wellbore are responsible for the closed in status. At present a study is under way to determine the feasibility of recompletion, secondary recovery, or disposal of the property.
