Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies, local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local, area, or regional office for specific instructions.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local, area, or regional office for specific instructions. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones, fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; condition for final inspection looking to approval of the abandonment.
