Gentlemen:

This is to notify you of our intention to plug and abandon our LaMunyon No. 1. If you have forms to be used for notifying you of our intention to plug or forms to be furnished after plugging has been completed, please mail us a supply of them.

You will note on the attached Well Record that the well was completed with a potential of 6 barrels of oil. Well was pumped until February 11, 1938, but did not produce in commercial quantities. Production during last 3 days pumped was 5 barrels, 4 barrels and 1 barrel respectively.

Very truly yours,

  
General Superintendent

FEF  
Att'd.
