HILL NO. 1-E

October 20, 19 53

Well No. 1-E is located 660 ft. from N line and 660 ft. from E line of sec. 34

N5/4 NE/4 Sec. 34
(¼ Sec. and Sec. No.)

T-23-S
(Twp.)

R-37-E
(Range)

NMPS
(Meridian)

Teague-Allenburger
(Field)

Les
(County or Subdivision)

New Mexico
(State or Territory)

The elevation of the derrick floor above sea level is 3274 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Form 9-331a, Notice of Intention to Drill was filed on this well under the date of August 15, 1951, as Hill No. 1.

As a result of development of other producing horizons on this lease subsequent to the completion of the first Allenburger well, much difficulty has been encountered with various agencies and concerns in the operation of the lease in regard to well numbers. Therefore, in order that more clarity and consistency might be maintained in reference to well numbers on this lease, this Change of Well Designation is submitted to change the well designation from No. 1 to No. 1-E.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
