Re: Incident of Non-Compliance AJM-063-97

Continue SI/TA status, waiting on outcome of E. C. Hill "B" Federal #24 (Teague Simpson) well. Cores have been taken in both the Glorieta and Paddock formations. A "Geological Study" is currently underway to determine the potential of the Paddock & Glorieta.

The Hill D #5 well is a potential recompletion candidate for primary and possibly secondary recovery project.

A successful casing integrity test was performed 1-7-98 and witnessed by Pat Hutchings with the BLM. Chart is attached.

Please grant continued TA status for this well.
