Re: Application for Dual Completion  
G. D. Riggs "B" Well No. 6  
Sec. 1, Twn 26S, Rng. 37E  
Lea County, New Mexico

Gentlemen:

Please find attached Tidewater's Application for Dual Completion for its G. D. Riggs "B" Well No. 6. Also attached is a plat of the immediate area and a diagrammatic sketch of the proposed dual completion. This well is to be completed as a conventional oil-oil dual completion in the Justis (Blinbry) and Justis (Tubb-Drinkard) Pools and produce through parallel strings of 2 1/16" OD tubing. The zones will be segregated by using a Baker Model "D" Production Packer.

Tidewater has requested administrative approval from the New Mexico Oil Conservation Commission for this dual completion. We respectfully request a waiver from your company to facilitate action on our application.

Yours very truly,

TIDEWATER OIL COMPANY
