Wink, Texas, February 16, 19234

Following is a ~~notice of intention to do work~~
~~report of work done~~ on land under ~~permit~~
~~lease~~ described as follows:

New Mexico

Lea County

Rhodes Pool

(State or Territory)

(County or Subdivision)

(Field)

Well No. 2 SE 1/4 Sec. 8 T 26 S R 37 E of N.M.P.M.

(H.G.Moberly #2)

(1/4 Sec. and Sec. No.)

(Twp.)

(Range)

(Meridian)

The well is located 1980 ft. N of S line and 1980 ft. E of E line of sec. 8

The elevation ~~of the bench mark~~ above sea level is 2977 ft. (Ground)

DETAILS OF PLAN OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

Test of water shut-off was made by pressure method rather than by dry hole test as proposed in our report of 2-12-34.

Ran in drill pipe with rock bit, found top of cement at 2772'. Closed blowout preventer and flow line & tested casing and surface connections with 750# pressure from 8:30 PM to 9:30 PM 2-15-34. Drilled plugs and cement to 2803' from 9:30 PM to 11 PM. Again closed blowout preventer and applied 725# pressure from 11 PM 2-15-34 to 2 AM 2-16-34 to test cement job. Casing, cement and surface connections were found to be free of all leaks and stood up to 750# pressure ok.

Approved February 19, 1934
