DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Tested 9-5/8" casing with 1000# pump pressure and drilled plug 10-1-45

Top of cement on first cement job 1850'. Casing was perforated with 4 shots at 1850' and cemented 9-5/8" casing to surface with 2300 additional sacks of cement.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
