4. Identity and distance to nearest gas gathering line: El Paso Natural Gas Company - 1 mile north.
5. Reason for and duration of exception desired: Due to small volume available and distance to nearest line we have been unable to attract purchaser for gas. For this reason permanent exception is requested.
6. Remarks: Possibility of connection has been discussed with El Paso and economics will be checked in the near future. Since this well is being pumped utilizing well head gas, a smaller amount of gas than shown above is actually being flared.
