DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We request permission to forego setting 15-1/2" casing at 50 feet due to the anticipated water gravel at 40 feet being dry and the hole standing up in good shape.

We request permission to proceed with the drilling operations without setting the above mentioned string of casing.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
