13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

We propose to pull rods & tubing out of the well and change out same where necessary. We then propose to run production string back in the well, set a pumping unit cand return the well to active producing status.
