DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Total Depth - 3330' - Sand.

5-1/2" Casing cemented @ 3165'

This well produced 67 barrels of oil in 15 hours, flowing by heads, and we now desire permission to shoot the pay section from 3330' to 3290' with approximately 60 quarts nitro-glycerine (EL-357). The shot will be tamped with approximately 2 yards of gravel. Results will be reported within 10 days after shooting and cleaning out.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

BUREAU OF LAND MANAGEMENT

OFFICE OF THE ASSISTANT ATTORNEY GENERAL

Washington, D. C.
February 1, 1941
Dear Sir:
Reference is made to your letter of January 14, 1941, in which you requested information regarding the status of the application for a patent for the invention of a certain type of machine, the details of which are set forth in the accompanying drawing. The Bureau of Land Management has no information regarding the status of this application.

The Bureau of Land Management is not a patenting agency and does not have the authority to issue patents. The only agency which has the authority to issue patents is the United States Patent Office. The Bureau of Land Management is responsible for the management of the public lands of the United States and for the protection of the interests of the United States in these lands. The Bureau of Land Management is not responsible for the protection of the interests of private individuals in their inventions.
