Re: State O Well #1-E
Section 32, T26S, R37E

Gentlemen:

We received the copies of the subsequent plugging report for the above-referenced well. Since you had requested that your plugging bond be released as soon as this well was approved, we made an inspection of the location December 22. It appears that the well was plugged but no dry hole marker was set in place with the required information.

As soon as the dry hole marker has been set, please advise and we will recheck the location so your bond can be released.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I

JS/ED/ed
