Harkey Energy, Inc. requests an extension of four months to place this well back on production. A top allowable oil well has recently been completed in Section 34 East of our lease in a zone that has not been developed on our wells. Also, a direct offset East of our Well No. 8 is being reentered. A second well is proposed for the lease in Section 34. We are currently in a workover program to recomplate our well No. 6 on this lease and making a geological study of the area.
