17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The above well is presently a shut-in injection well. It is this company's plan to workover the subject well in order to make a producing well. The well was operated as an injection well by Shell Oil Company. An engineering study is being made to determine if the injection well were to be reestablished whether additional oil could be recovered. We will notify the United States Department of the Interior as soon as this is determined.
