ATTENTION: Mr. A. L. Porter

RE: Exception to "No-flare Order"
No. R-610, Blinebry Pool,
DeKalb- Federal Elliott # 1-G
S/2 of N/2 Sec. 6, T-23-S, R-38-E,
Lea County, New Mexico

Gentlemen:

This is to apply for an exception to Order No. R-610 on our Federal Elliott Well # 1-G, located in Section 6, T-23-S, R-38-E, Blinebry Pool, Lea County, New Mexico.

DeKalb has only one well producing oil and gas on this lease. Our oil production is approximately 110 barrels of oil per month, with a Gas-Oil Ratio of 594/1 making a total of 65,340 cubic feet of gas production per month. The nearest gas pipe line belongs to Gulf Oil Corporation and is taking gas from Gulf Oil Corporation's, H. B. Pike Lease, N/2 of N/2 of Section 6, T-23-S, R-38-E. In order for Gulf to connect our gas into their line it will be necessary to lay approximately 2800 feet of pipe line plus installing metering equipment.

2 mcr / 10

Enclosed you will find a letter from the Gulf Oil Corporation explaining that it is un-economical to go to this expense.

Enclosed also please find plat showing well location, offset ownership, location of tank battery and gas sales lines.

Page # 2

Due to the foregoing and enclosed information and evidence, DeKalb Agricultural Association, Inc., does hereby respectfully request an exception to "No-flare Order" No. R-610.

I, Jack L. Brown, being first duly sworn upon my oath, depose and say that I have carefully read the foregoing statements and each and all of the items contained therein, and that same are true to the best of my knowledge and accurate to the best of my knowledge and belief.

Lubbock, Texas

Attention: Mr. Jack L. Brown

Gentlemen:

Reference is made to your request to Mr. Kiehlger, at our Eunice Gasoline Plant, that we purchase the casinghead gas produced from your Elliott Lease located in the S/2 N/2 Section 6-430-344, Lea County, New Mexico.

We regret to inform you that due to the small volume of gas available and also due to the distance to your lease from our gathering system it is not economical to connect this gas. Should conditions change in the future making more gas available, we will be happy to reconsider this connection at that time.

Very truly yours,

M. I. Taylor
