(Other)

Initiated Blinebry Production

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

In June of 1991, we initiated production from the Blinebry Pool. Production is from Blinebry perms. 5672 - 5893'. This zone had been temporarily abandoned for a number of years. Last Blinebry production was June of 1982. Production is from the tubing casing annulus. The well is classified as Blinebry Oil. No change has been made in perforations as this sundry notice is for notification only. John H. Hendrix Corporation has applied to DHC all zones.

18. I hereby certify that the foregoing is true and correct

SIGNED

Ronnie H. Westbrook
