To Rick Brown

Please check and see why the following well does not have any production reported in the gas proration schedule.

Tubb Pool
Amoco Production Pike Fed #1-A 6-23-38

The operator called and said there had been no production reported in the gas proration schedule for this well since it was reclassified from "N" to "M" in February 1985.

Can you correct this. I see no indication that we have issued any document to change the well from a gas well.

Call me and let me know. Thanks!

Evelyn
