17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The well was shut in on August 1, 1971, after mechanical problems developed. We propose leaving it shut in until remedial work on offsetting wells to correct injection interval has been completed, then repairing the equipment.

Remedial work on offset wells should reduce water breakthrough and corrosion problems.
