17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

In an attempt to lower the packer in this well to confine injection to the Abo and lower portion of the Drinkard Zones, water broke around.

A liner is proposed for this well to eliminate injection into the Tubb Zone and the upper portion of the Drinkard zone.

Well was shut in on June 23, 1971, and we propose leaving it shut in until remedial work permits correction of the injection interval.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
