Re: Proposed NSP           

Proposed NSL           

Proposed NFW           

Proposed DC   X  

Gentlemen:

I have examined the application dated 9/2/60  
for the Anderson Prichard Oil Corp. Buffington "B" #3-D-M 19-25-38  
Operator Lease and Well No. S-T-R

and my recommendations are as follows:

O.K.—E.F.E.

O.K.—J.W.R. Top of Tubb 5743', Top of Drinkard est. 5974'

Yours very truly,

OIL CONSERVATION COMMISSION

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry must be clearly documented, including the date, amount, and purpose of the transaction. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze data. These methods include direct observation, interviews with key personnel, and the use of specialized software tools. Each method is described in detail, highlighting its strengths and limitations.

The third part of the document focuses on the results of the data collection process. It presents a series of tables and graphs that illustrate the trends and patterns observed in the data. These visual aids are used to support the conclusions drawn from the analysis.

Finally, the document concludes with a summary of the findings and recommendations for future research. It suggests that further studies should be conducted to explore the underlying causes of the observed trends and to develop strategies to address any identified issues.
