17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

NOTE: This well is a dual oil well producing from the Ellenburger zone as Texaco, Inc. C. E. Penny NCT-4 Well #5 and from the McKee zone as Tidewater's Justis McKee Unit Well #305.

The following work was performed between 6-28-66 and 7-6-66: Cut off wireline approximately 100' above tree. Circulated casing annulus with 8#/gal inverted oil emulsion mud containing 5% gilsonite. Removed tree and nipped up BOP. Picked up on Ellenburger tubing and found that tubing hanger had pulled off top joint of tubing leaving pin looking up. Attempted to pull wireline tools but wireline broke off at rope socket dropping sinker bars in annulus. Ran center spear, caught Ellenburger tubing and pulled up above BOP. Re-threaded tubing pin, made up hanger. Set Ellenburger string down. Installed tree and displaced mud from annulus. Ran overshot in McKee tubing and attempted to fish rods and pump at 7030. Could not unstick pump. Ran Otis seating nipple and set at 7015. Ran rods and pump and seated pump in Otis seating nipple.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
