Re: Completion TEXACO Inc. C. E. Penny  
(NCT-4) Well No. 7, Justis Blinbry  
Pool, Unit D, Section 19, T-25-S,  
R-38-E, Lea County, New Mexico

Attention: Mr. Joe D. Ramey

Gentlemen:

Attached are packer setting affidavit, packer leakage test,  
and diagrammatic sketch of equipment installation for the subject well.

Approval to dually complete the well in the Justis Blinbry  
Pool and the Justis Tubb-Drinkard Pool was granted by Order No.  
MC-1107, dated October 26, 1961. The Tubb-Drinkard Pool was not  
commercially productive of oil or gas; therefore, the well was singly  
completed in the Justis Blinbry Pool. A Baker Model "D" permanent-  
type packer had been set between the zones prior to determining that  
the Justis Tubb-Drinkard reservoir was not commercially productive.  
Until such time that the well is entered for remedial work, the instal-  
lation will remain as shown on the diagrammatic sketch. The Tubb-  
Drinkard zone will be shut in at the well head.

Yours very truly,

TEXACO Inc.

(Signed) H. N. Wade

PACKER-SETTING AFFIDAVIT  
(Dual Completions)

STATE OF NEW MEXICO )  
County of LEA ) ss

P. H. ROGERS, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by TEXACO Inc. in the capacity of Asst. Drilg. Foreman and as such is its authorized agent.

That on December 4, 1961, he personally supervised the setting of a Baker Model "D" Production in TEXACO Inc.'s  
(Make and Type of Packer) (Operator)

C. E. Penny (NCT-4) Well No. 7, located in Unit  
(lease)  
Letter D, Section 19, Township 25-S, Range 38-E, NMPM,  
Lea County, New Mexico.

That said packer was set at a subsurface depth of 5520 feet, said depth measurement having been furnished by Welex.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

TEXACO Inc.  
(Company)

P. H. Rogers  
(its Agent)

Subscribed and sworn to before me this the 20 day of Dec., AD, 1961.

James Wilton Browning  
Notary Public in and for the County  
of Lea

My Commission Expires April 15, 1965.
