May 30, 1989

STATE 32-1
TEMPORARY ABANDONMENT

Oil Conservation Department
P. O. Box 1980
Hobbs, New Mexico 88240

Attn: Jerry Sexton

Dear Jerry:

The subject well was temporarily abandoned on May 26, 1989. The 5 1/2" casing was pressure tested to 510 psi and decreased to 410 psi at the end of the 30 minute test.

Per our telecon on May 26, 1989, your permission was requested and granted to T.A. this well in its present condition. We suspect a prior squeeze at 5749-5781 to have broken down and the pressure drop indicates a small leak. Leaks of this nature have proved to be difficult to repair in the past.

Please call me if you have any questions concerning this temporary abandonment.

M. E. AKINS
Staff Drilling Engineer
