Texaco Exploration and Production Inc requests an extension of one year of the temporary abandonment status of the above well which ended on 3/31/97. The original temporary abandonment status was approved on 5/3/95 based upon the results of a casing integrity test conducted on 3/31/95 and witnessed by BLM representative Andy Cortez. The casing and plug were successfully tested to 500 psi for 30 minutes. TEPI requests TA status on this well through 3/31/99. A copy of the 3/31/95 test chart is on back.

Justification: A \$2,400,000 Cotton Draw 3D seismic acquisition was completed in late 1995. Texaco is processing the 3D survey. Texaco would like to hold the deeper Cotton Draw wells in idle/TA status until the seismic data can be completely analyzed.
