NOTE: Should waivers from the surface owner and all operators within one-half mile of the proposed injection well not accompany this application, the New Mexico Oil Conservation Commission will hold the application for a period of 15 days from the date of receipt by the Commission's Santa Fe office. If at the end of the 15-day waiting period no protest has been received by the Santa Fe office, the application will be processed. If a protest is received, the application will be set for hearing, if the applicant so requests. SEE RULE 701.

Re: Administrative Approval
Proposed SWD Well No. 1

Gentlemen:

Truckers Water Company respectfully requests administrative approval to convert to salt water disposal a temporarily abandoned well located 660' FSL and 660' FWL of Section 2, Township 23 South, Range 37 East, Lea County, New Mexico. Attached are Commission Form C-108 with accompanying location plat, diagrammatic sketch of the proposed salt water disposal well and Waiver of Objection.

It is proposed to squeeze cement the perforated interval 2960-80' with 100 sacks of cement. A Baker Model "D" packer will be run on 2-3/8" plastic-lined tubing and set in the 5-1/2" casing at a depth of 3924'; the tubing-casing annulus will be loaded with treated water. Salt water will be disposed in an existing perforated interval 4072-4144' and open hole interval 4484-4500'.

Salt waters collected from batteries not connected to existing salt water disposal systems in Lea and Eddy Counties will be trucked to the proposed SWD Well No. 1 for disposal. The anticipated daily injection volume will be 500 barrels of salt water.

Yours very truly,

TRUCKERS WATER COMPANY

A handwritten signature in cursive script, appearing to read "J. Blakey".

WAIVER OF OBJECTION

We, the undersigned, do hereby waive our objection to the application of Truckers Water Company for authority to dispose of oilfield brines in their SWD Well No. 1, located 660' FSL and 660' FWL of Section 2, Township 23 South, Range 37 East, Lea County, New Mexico. It is understood that this disposal will be into the lower San Andres formation which to Truckers' knowledge is not productive of oil or gas within two miles of said subject well.
