Attention: Mr. Duncan W. Holt, Jr.

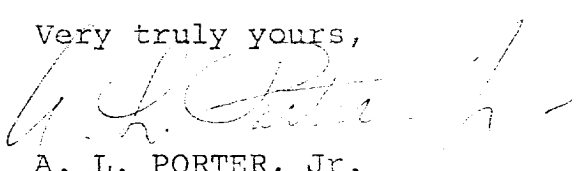

Gentlemen:

Reference is made to your application dated April 19, 1973, for a hearing for a 160-acre non-standard gas proration unit comprising the SE/4 of Section 34, Township 23 South, Range 36 East, Jalmat Gas Pool, Lea County, New Mexico, to be simultaneously dedicated to two wells, your W. B. Guthrie Wells Nos. 1 and 2, located in Units O and I, respectively, of said Section 34. You presently have a non-standard unit comprising the aforesaid acreage dedicated to the No. 1 well only.

It is the present policy of the Commission where a proration unit already exists, and both proposed unit wells are at standard locations, to permit such simultaneous dedication without a hearing, in the absence of objection from the offset operators.

You will therefore be permitted to dedicate both wells to the unit effective June 1, 1973, unless we have received objection from an offset operator by May 19, 1973.

Very truly yours,

A. L. PORTER, Jr.
Secretary-Director
