

NEW MEXICO OIL CONSERVATION COMMISSION
OIL AND GAS DIVISIONForm W-4A
(Rev. 8-27-69)SKETCH OF MULTIPLE COMPLETION INSTALLATION
WITH TUBING INSIDE CASING

(Fill out only the side of this form that applies to your installation.)

1. Field Name <u>Antelope Ridge</u>		2. XXX District <u>NMOCC</u>
3. Operator <u>TEXAS WEST OIL & GAS CORPORATION</u>		4. County <u>Lea</u>
5. Lease Name(s) XXXXXXXXXXXXXXXXXXXX		6. Well Number <u>2</u>
7. Type of Multiple Completion — dual, triple, etc. <u>Dual</u>		9. Date <u>27 August 1973</u>
8. Which sketch below (A, B, C, or D) fits your multi-completion installation? <u>"B"</u>		

Sketch	A	B	C	D
String	(1)	(1) (2)	(1) (2) (3)	(1) (2) (3) (4)
Packer set at _____ ft. Tubing landed at _____ ft.				
RRC Alphabetic Code Designation _____ Name of Reservoir _____ Type of Production (oil, gas, or Inj.) _____ Zone Interval _____ to _____ Perforated or Producing Interval _____ to _____				
Packer set at _____ ft. Tubing landed at _____ ft.				
RRC Alphabetic Code Designation _____ Name of Reservoir _____ Type of Production (oil, gas, or Inj.) _____ Zone Interval _____ to _____ Perforated or Producing Interval _____ to _____				
Packer set at <u>12,250</u> ft. Tubing landed at <u>12,250</u> ft.				
RRC Alphabetic Code Designation _____ Name of Reservoir <u>Atoka</u> Type of Production (oil, gas, or Inj.) <u>Gas</u> Zone Interval _____ to _____ Perforated or Producing Interval <u>12,407' to 12,480'</u>				
Packer set at <u>13,170</u> ft. Tubing landed at <u>13,170</u> ft.				
RRC Alphabetic Code Designation _____ Name of Reservoir <u>Morrow</u> Type of Production (oil, gas, or Inj.) <u>Gas</u> Zone Interval _____ to _____ Perforated or Producing Interval <u>13,260 to 13,699'</u>				
7-5/8" Liner XXXX set at <u>13,801</u> ft. Total Well Depth at <u>13,825</u> ft.				

NOTE: Clearly mark any Cross-over Packers or Side Door Chokes and show depth at which set.

Side Door Choke set at None ft. String No. _____ Cross-over Packer set at None ft. String No. _____

- INSTRUCTIONS FOR SIDE 1 -

- Fill out only the side of this form that applies to your multiple completion installation. This side may be used for a dual, triple, or quadruple completion. If none of the sketches fits your installation, draw your installation on an attached sheet showing the identical required information.
- If this side of the form is used, two copies of Form W-5, PACKER SETTING REPORT (for each packer set); two copies of Form W-6, COMMUNICATION OR PACKER LEAKAGE TEST; an Electrical Log; and two copies of this form must be filed with the two copies of Form W-4, APPLICATION FOR MULTIPLE COMPLETION, in the RRC District Office.
